PROFESSIONAL PROFILE

Bachelor in Social Communication from the National University of Rosario, focused on digital project management, cross-functional coordination, and stakeholder management. I coordinate digital and creative projects end to end, aligning Product, Technology, Design, and Services teams, organizing workflows, and improving processes. At Tu Estudio Amigo I work with multiple clients and stakeholders: I gather needs in weekly meetings and turn them into actionable plans with the internal team. My technical background and hands-on full-stack development experience let me engage technical teams and translate needs between business, product, and technology.
